Court of Appeals Say They Are Good And Valid.

Decision Rendered Today By Judge O'Rear, Affirming Lower Court.

THE CITY CAN NOW PROCEED WITH ISSUE

There is now nothing in the way of Paducah's issuing the \$150,000 in bonds voted by the people last November for street improvements, a new market house and new city hospital. The bonds were today adjudged perfectly legal by the court of appeals of Kentucky, the highest tribunal in the legal, if they were not so before.

A special to The Sun from Frankfort

Frankfort, Ky., April 20-The ap pellate court, Judge O'Rear writing, affirmed the McCracken circuit court before the cases against Editor Allison in the case of Ed Woolfolk against the and Mr. Riley for criminal libel, are city of Paducah. The question of the validity of a bond issue of \$150,000 and continued until the next term of for street improvements was raised in the case. The court below sustained the bond issue, and that judgment is upheld by the court of appeals.

WHEN YOU THINK OF A BLOOD PURIFIER THINK OF SSS

The Most Popular and Widely-Known Blood Purifier GUARANTEED PURELY VEGETABLE

This is the season that tests the quality of your blood, and if it is not good, then evidences of it will begin to show as the weather grows warmer. Carbuncles and boils, pimples and blotches, and numerous itching and burning skin eruptions will make their appearance, and are sure indications of bad blood. It spring-time finds you with impure, sickly blood, then you are in poor condition to withstand the strain upon the system which always comes at this time of the year. A failure to look after your physical welfare now, by purifying the blood and toning up the general system, may result in a complete breaking down of health later on, and you will find yourself weak and run down, with no appetite, and a prey to indigestion and nervousness. It is poor blood that makes weak bodies, for it

's this vital fluid that must supply vigor and strength to our systems, and upon its purity rests our chances for health. Any impurity, humor or poison in the blood acts injuriously upon the system and affects the general health. It is to the morbid, unhealthy matter in the blood that chronic sores and ulcers are due. The pustular and scaly skin eruptions so common during spring and summer, show the blood to be in a riotous, feverish condition, as a result of too much acid or the presence of some irritating humor or acrid poison in the blood. A large per cent. of human ailments have their origin in a polluted, diseased blood, and can only be reached by a remedy that goes into the circulation and uproots and expels the poison and restores the blood to a healthy, natural condition. BODY INDENTIFIED AS L. W. JOHNSON

Remains Were Not Brought Back for Burial.

Kentucky Encampment at St. Louis This Year-Miners May Clash at Wheateroft.

OTHER NEWS IN KENTUCKY

Hopkinsville, Ky., April 20-The body found at Tuscola, Ill, and believed to be Lewis W. Johnson, of White Plains, Ky., who disappeared on February 14, has been fully identified by his brother. A three-link Odd Fellows' emblem saved him from a pauper's grave. The body when found had probably been in the field for weeks, and identification was made only by a knife, papers and a purse, and the clothing. The remains were in such condition they could not be moved and were buried at Tuscola.

MAYFIELD DEATHS.

Mayfield, Ky., Apri 20-J. O. Cochran, aged 74 years, one of the leading and influential farmers of the county, died at Farmington, this county, of pneumonia. He was a member of the Masonic lodge.

Mrs. William Cook, aged 88 years, died. She was well known and a relative of W. S. Cook, president of the Mayfield Banking. Miss Helen Harris, aged 19, died of consumption. She was a native of Trigg county and leaves besides her parents four brothers and five sisters.

MINE TROUBLE AT WHEAT-CROFT.

Madisonville, Ky., April 20 -- Considerable trouble is reported between union miners and operators at Wheatcroft. The company suspended operations a short time ago and announced that the mine would remain idle for an indefinite period, and began buying the tools from the miners. Last week about 50 nonunion men arrived at Wheatcroft and the mines were started again. The union miners notifled the new miners to give up their jobs at once and they have done so ar left for their homes.

THE ONLY CURE

136 East Fiftieth Street, New York City, N. Y., June 1, 1903.

I believe that if we all knew the laws of health we would all be well and if sick women only knew the true value of Wine of Cardui they would be saved much suffering and would soon be cured. I have very strong faith in it. I used it for five months for a local diff and had spent hundreds of dollars in the endeavor to get well. I was daily losing my vitality with that bearing down feeling which thousands of women know all about. Your

medicine cured me. I am enjoying the very best of health now and am only too pleased to endorse your great remedy.

WINEOFCARD

Mrs. Welch lives in New York City where the best medical attention can be secured, but she writes that Wine of Cardui was the only medicine which could cure her. A woman who has been saved from a life of suffering by Wine of Cardui when other medicines failed to benefit her has reason to have strong faith in this great tonic.

Mrs. Welch has faith in Wine of Cardui because it cured her. Handreds of thousands of women have faith in this grand old medicine because it not only cured them. but it continues month after month to ease their pain and give them strength for the duties of life. Should you not give it a trial? Here is a well tried and successful remedy which it is your privilege to take. Nobody can prevent you from securing health. You know that over a million women owe life and health to this great menstrual regulator. A million cured women advise you to take it. Will you listen to their advice? Won't you go to your druggist today and secure a bottle of Wine of Cardui?

It would be hard to estimate the damage and cost to Paducan of the action of a Democratic council a few \$1.00 on which interest had been paid with out a question by the city for ten years. First and foremost was the injury to the city's credit. No city stands very high in the financial world when its officials, acting for the pecple, who in some cases, unfortunately, as in this one, cannot act for themselves, repudiate an honest debt which was contracted by and with the consent of the people, which ber efited the people, and on which interest had been paid without protest for ten years by the people. In addition there have been other costs. It has cost the city first, in interest and compound interest on the defaulted interest, several hundred dollars. It has cost in attorneys and court fees several hundred dollars more, and last, it cost the city in the end, \$1800 in a lump to get the case off its hands, and cost two hundred dollars or more for court costs. Public opinion may not alway be right, but the city council that saddled this outrage on the people would have profited by listening to public opinion at the time, and would have also saved the taxpayers, whose interests they were chosen to represent, much trouble, humiliation and ex-

Federal Court Winds Up Its Business Today.

Convictions in Circuit Court-Only One Criminal Case Now

NO POLICE COURT TODAY

The regular April term of federal court will adjourn today after a session of three days. Comparatively Berry. little business has been transacted. This has been a very quiet term of court and the most important cases considered are those against the Blood river farmers who are charged with making and passing \$20 bank notes.

Those who have been indicted for this offense are E. D. Thompson, Robert Duncan, H. B. Duncan, M. G. Warren and Doss Boatright. The robberies, burglaries or thefts, and in latter is charged with photographing fact there was "nothing doing" at the original note from which the spurious notes were made.

M. G. Warren considered it unneces sary to go into trial and pleaded guilty to passing one of the counterfeit bills and was given two years in the penitentiary the first sentence imposed in the cases

E. D. Thompson, another counter feiter, was tried and found guilty but sentence was deferred by the court. H. B. Doncan and Robert Duncan are the only two remaining counterfeiters to be tried and as soon as they have been given a hearing, court will have finished business and adjourned. Doss Boatbright, who is a photographer by profession, seems to have been the ring leader of the bunch.

Many witnesses were introduced by the federal prosecutors. Sam Lilly, of Trigg county, was one of the most effective witnesses against Boatright. He stated that last July in Trigg county Boatwright was traveling about with a photograph outfit and came to him one day with an invitation to visit his photograph tent which he did. At the tent Boatwright proposed to teach him the art of 'making money' by the photograph process. Lilly swore that Boatwright told him he could make such an exact counterfeit of a Mayfield \$20 bank note that he would guarantee him it would pass successfully and was a money making investment. He proposed to teach Lilly the art for \$20 food as any food you could eat, and bebut no contract was made and Lilly

Lilly further stated that he was arrested for perjury but did not know for the brain and nerves. It reconstructs who was responsible for it, an soon worn-out nerve tissue, and fills your languid brain with new life and vigor. after his arrest, Boatwright assured him if he, Lilly, who was known to have evidence against Boatwright, would be as light as possible on him and tell no more than what was absolately forced out, he was assured his release by having the perjury case dismissed by the grand jury. Lilly was dismissed in the grand jury examination and this was the last heard of the matter, but it was subsequently developed that Boatwright was responsible for Lilly's arrest and had taken this means to secure Lilly' Mrs. W. A. Davis is ill at her home pledge not to testify against him when the counterfest cases came up.

All through the trial Boatwright would sit and shake his head in denial to everything of a serious nature said against him.

James Jackson the negro who was yesterday afternoon tried for raising United States currency, was found not guilty in one indictment and guilty in two others, but sentence was deferred.

The civil action of W. J. Sizemore against the I. C. railroad was dismissed without prejudice.

This was a case appealed from the circuit court. Marshal A. D. James returned to

Louisville today at noon, having left the remaining business with his dep uty marshal, Walter Blackburn. The Boatwright case will probably

be finished late this afternoon. Boat wright testified this afternoon and denied every allegation. He hat his camera which he explained to the jury could not take a photograph of the bills claimed to be bogus and at press time the case was still on trial.

Two indictments against James O'Day, white, who was last week given three years in the penitentiary for breaking into the railroad shops, were dismissed.

Frank Lyons pleaded guilty to shooting Oscar Hoffman in the New Richmond hotel kitchen last summer, and was given one year. They are both negro waiters then employed in the dining room of the New Righmond hotel.

The only case left on the criminal docket for trial is that against Jerry Clark, colored, charged with shooting at Norfleet Finley. His case will come up this afternoon before Special Indge

AT BROOKPORT.

Illinois Port.

Two Steamers Damaged By Landing Against the Sharp Tracks of the I. C.

from the I. C. tracks which extend down into the river. These tracks cut up the river front into many sections, and were built for the tie trade which has increased to such enormous proportions within the past few years.

Yesterday a hole was found in the ferryboat Bettie Owen and there were two feet of water in her hull before it was discovered. The hole is supposed to have been knocked in her hull by contact with one of the sharp rails at the Brookport landing.

The Cairo packet Dick Fowler, it is claimed, ran onto the tracks a day or two ago, and was for a time aground. She bent the rails, and at the same time knocked a small hole in her side. This hole is not sufficient to interfere with her business, but this afternoon she will be pulled out on the Mound City ways and the damage will be repaired. She will doubtless be detained only a short time and will return this evening as usual, and be ready to make her regular trip to Cairo tomorrow.

An official of the packet company said today that the Fowler would stop at Brookport proper no more. "The river front is ruined by those tracks," he declared, "and we go down below the city to make our landing, which is not very convenient to us or the people, but is better than ruining the boat on those tracks."

It is understood that something will be done to secure the removal of the tracks but nothing definite has yet

VERY ROUNDABOUT

COFFEE TRAVELS A LONG DIS-TANCE TO REACH CHAT-TANOOGA.

Captain Frank Brown, of the steamer Chattanooga, reports an unusual instance of where the freight O. M. Thornbill who can figure things out better than they. Captain Brown's boat arrived yesterday from Chattanooga, and in her cargo was a car of coffee shipped from New York. It was to go to Trotter Bros., at Chattanooga, but it was cents a hundred pounds more than from New York to Brookport, Ill., thence to Chattanooga by river. Therefore, the coffee men shipped the coffee to Trotter Bros., Brookport, Ill., care of the steamer Chattanooga. The coffee was accordingly sent through Chattanooga, brought to Paducah and there being no transfer boat here, was taken around to Cairo, thence to Carbondale, Ill., and around to Brookport and loaded there on the steamer Chattanooga to be taken back to Chattanooga. And this long route, several hundred miles longer than necessary, cost four cents less than it would have cost to bill the coffee direct from New York to Chattanooga.

THE BLOCK SYSTEM IS SOON TO BEGIN

Material Expected Every Day at Central City.

Two New Wires Will Have to Strung Between Paducsh and That Place.

WORK WILL NOT REQUIRE LONG

The material for the new block sys tem to be installed between Paducah and Central City on the Illinois Cen-10 tral has been shipped and is expected at Central City every day. As soon as it arrives the work of placing it in will begin, and will require only a short time, with good weather. Lineman J. R. O'Bryan, of Paducah, will assist in supervising the work, which will begin at Central City.

The block system will require two new telegraph wires between Paducah and Central City, which will be strung on the poles now in use. This will mean pearly 200 miles of new wire to string, but linemen usually can string ten miles a day, hence the work ought to be finished in two or three weeks.

The I. C. will block the district from station to station. The block system can be made to serve for any distance. The "blocks ' can be made any distance desired, but on the I. C. they will be made from station to sta-

On account of the lack of uniformity in distance between stations, several new stations will doubless have to be established by the road.

It is reported one of these stations will be between Paduach and Little Cypress, snother between Eddyville and Princeton, and the other between Princeton and Dawson.

When a train gets no one section of track, which on the I. C. will be be tween stations, a signal drops and remains that way to warn trains either way until the train passes onto the next, which is beyond the next

It is expected that work on the sys tem will begin in a very few days. The authority to begin work was received here this morning and the signal engineer, whose headquarters are in Chicago, has been ordered to report here at once to begin work.

There will be five gange employed on the work, all under the supervision of the signal engineer. No especial gangs will be used and the laborers employed in this work will be taken from the bridge and section cr the district. This is the means adopted all over the system where block systems are installed.

MARKET CORNERED

THE TRUST HAS BOUGHT UP THE BULK OF THE BURLEY.

It seems to be the -general opinion in Paducah that the Continental Tobacco Company, or "trust," has practically cornered the Burley market. Reports from everywhere confirm this supposition. The company bought about everything in sight before others caught on to its plans, and since then has managed to get all it wanted, and has made its competitors pay a fancy price for all that they have been able to obtain.

It has continued to purchase wherever it found an opportunity, and it was stated by one tobacco man today that he believed the trust was willing if necessary to pay \$5 a hundred more Costs 10 Cents, Equals 20 Cents than the highest price yet reached for worth of any other kind of bluing Burley, in order to get the supply and down its competitors.

TRIAL TREATMENT IND 64-PAGE BOOK CLEVELAND.

At last there is a scientific way to cure gourself of any kidney, bladder or rheumatic disease in a very short time in your own home and without the ex pense of doctors, druggists or surgeons The credit belongs to Dr. Edwin Tur-nock, a noted French-American physihe said, "an editorial that I thought cian and scientist, who has made a lifelong study of these diseases and is

in sole possession of certain ingredients which have all along been needed and without which cures were impossible. The doctor seems justified in his strong statements as the treatment has been thoroughly investigated besides being tried in hospitals, sanitariums, etc., and has been found to be all that is claimed for it. It contains nothing harmful but nevertheless the highest authorities say it will positively cure Bright's disease diabetes, dropsy, gravel, weak back, stone in the bladder, bloated bladder, frequent desire to urinate, albumenaria, sugar in the urine, pains in the back, legs, sides and over the kidneys, swelling of the feet and ankles, retention of urine, scalding, getting up nights, pain in the bladder, wetting the bed and such rheumatic affections as chronic, muscular or inflammatory rheumatism, sciatica, rheumatic neuralgia, lumbago, gout, etc., which are now known to be due entirely to uric acid poison in the kidneys, in short, every form of kidney, bladder or urinary trouble in man,

woman or child.

That the ingredients will do all this is the opinion of such authorities as Dr. Wilks, of Guy's Hospital, London: the editors of the United States Dispensatory and the American Pharmacopæia, the Company of the Comp both official works; Dr. H. C. Wood, member of the National Academy of Science and a long list of others who speak of it in the highest terms. But all this and more is explained in a 64-page illustrated book which sets forth the doctor's original views and goes deeply into the subject of kilney, bladder and rheumatic diseases. He wants you to have this book as well as a trial treatment of his discovery, and you can get them entirely free, without stamps money, by addressing the Turnock Medical Co., 941 Turnock Building, Chicago, Ill., and as thousands have already been cured there is every reason to believe it will cure you if only you will be thoughtful enough to send for the free trial and book. Write the first spare moment you have and soon you will be cured.

It would seem that any reader so afonce since no money is involved and and trustworthy source.
